

MMGAY Portal

Physical Possession - Mobile API Specification

Version 1.0 (Sanctum Authenticated) • Base URL: /api/mmgay

1. Authentication APIs

GET

/refresh-captcha

No Auth

Generates a stateless numeric captcha for the login pages.

Response (200 OK):

```
{
  "success": true,
  "captcha_key": "4c9472e3-d7ab-4b2a-a92c-5507d9fde99f",
  "captcha": 5831
}
```

POST

/bdo/login

No Auth

Authenticates a Block Development Officer (BDO) via email and password.

Field	Type	Required	Description
email	string	Yes	BDO registered email address.
password	string	Yes	BDO login password.
captcha	string	Yes	Entered captcha number value.
captcha_key	string	No	UUID key received from /refresh-captcha API.

Success Response (200 OK):

```
{
  "success": true,
  "message": "Login successful! Welcome back BDO.",
  "token": "3|AbCdEfGhIjKlMnOp...",
  "user": {
    "id": 12,
    "name": "BDO Nissing",
    "email": "nissing.bdo@gmail.com",
    "mobile": "9998887771",
    "role": "mmgay_bdo",
    "block_id": 4,
    "block_name": "Nissing"
  }
}
```

POST

/villager/login/send-otp

No Auth

Initiates Mobile OTP sending process for allotted Villagers.

Field	Type	Required	Description
mobile	string	Yes	Registered 10-digit mobile number.
captcha	string	Yes	Captcha value.
captcha_key	string	No	Captcha UUID key.

Response (200 OK):

```
{
  "success": true,
  "message": "OTP has been successfully sent to your mobile number.",
  "resend_after": 60
}
```

Verifies the OTP sent to the villager's mobile. Returns the Sanctum Bearer Token.

Field	Type	Required	Description
mobile	string	Yes	Mobile number.
otp	string	Yes	6-digit numeric OTP received via SMS.

Success Response (200 OK):

```
{
  "success": true,
  "message": "Login successful! Welcome to MMGAY Portal.",
  "token": "4|XyZwPaSswordToKeN...",
  "user": {
    "id": 85,
    "name": "Ram Lal",
    "mobile": "9876543210",
    "email": "ramlal@example.com",
    "role": "villager",
    "block_id": 4,
    "block_name": "Nissing"
  }
}
```

2. BDO Officer APIs (Token Authenticated)

GET /bdo/dashboard

Bearer Token

Returns BDO block statistics and recent application records.

Response (200 OK):

```
{
  "success": true,
  "stats": {
    "total_eligible": 45,
    "not_scheduled": 12,
    "awaiting_citizen": 5,
    "awaiting_coordinates": 8,
    "awaiting_bdo_doc": 4,
    "verified": 16
  },
  "recent_applications": [
    {
      "id": 1,
      "application_number": "PP-MMGAY-2026-1025",
      "applicant_name": "Sunder Singh",
      "physical_possession_status": "Visit Scheduled",
      "possession_date": "2026-07-15"
    }
  ]
}
```

GET /bdo/eligibility-list

Bearer Token

Lists all eligible beneficiaries who have completed their payments. Query params: ?search= • ?all=1

Response (200 OK):

```
{
  "success": true,
  "applications": {
    "current_page": 1,
    "data": [
      {
        "id": 232,
        "secure_id": "8e5c123490abcde...",
        "applicant_name": "Satish Kumar",
        "father_name": "Devi Lal",
        "mobile": "9992223334",
        "district_name": "Karnal",
        "block_name": "Nissing",
        "application_number": "PP-MMGAY-2026-2342",
        "physical_possession_status": "Eligible for Physical Possession"
      }
    ],
    "total": 15
  }
}
```

GET /bdo/schedule/capacity/check?date=YYYY-MM-DD

Bearer Token

Returns count of scheduled visits for each hour of the selected date. Used to prevent overbooking (>10 visits/hr).

Response (200 OK):

```
{
  "success": true,
  "counts": {
    "9": 2,
    "10": 10,
    "11": 0,
    "12": 1,
    "13": 5,
    "14": 8,
    "15": 0,
    "16": 0
  }
}
```

GET /bdo/schedule/{secure_id}

Bearer Token

Fetches beneficiary details and active application data prior to scheduling.

Response (200 OK):

```
{
  "success": true,
  "application": {
    "id": 5,
    "application_number": "PP-MMGAY-2026-1025",
    "physical_possession_status": "Eligible for Physical Possession"
  },
  "owner": {
    "OwnerId": 232,
    "OwnerName": "Satish Kumar",
    "FlatNo": "Block-C/Plot-45"
  }
}
```

POST

/bdo/schedule/{secure_id}

Bearer Token

Submits three optional date/time slots for physical field visits.

Field	Type	Required	Description
slot_date_1	date (YYYY-MM-DD)	Yes	Proposed Date option 1. Must be after today.
slot_time_1	string (HH:MM)	Yes	Proposed Time option 1. Must be between 09:00 - 16:00.
slot_date_2	date (YYYY-MM-DD)	Yes	Proposed Date option 2.
slot_time_2	string (HH:MM)	Yes	Proposed Time option 2.
slot_date_3	date (YYYY-MM-DD)	Yes	Proposed Date option 3.
slot_time_3	string (HH:MM)	Yes	Proposed Time option 3.
visit_instructions	string	No	Special instructions for field visit.

Response (200 OK):

```
{
  "success": true,
  "message": "Physical Possession visit has been successfully scheduled."
}
```

GET

/bdo/verify/{secure_id}

Bearer Token

Retrieves verification details, beneficiary status, uploaded files, and historic remarks/logs.

Response (200 OK):

```
{
  "success": true,
  "application": {
    "id": 5,
    "physical_possession_status": "Slot Selected",
    "citizen_visit_date": "2026-07-15 10:00:00",
    "plot_image": null
  },
  "owner": {
    "OwnerName": "Satish Kumar",
    "FlatNo": "Plot-45"
  },
  "logs": [
    {
      "old_status": "Visit Scheduled",
      "new_status": "Slot Selected",
      "remarks": "Visit slot selected by Citizen"
    }
  ]
}
```

POST

/bdo/verify/{secure_id}

Bearer Token

Processes verification stages. Form-data format is required for file uploads.

Stage 1 Parameters (When Status is "Slot Selected"):

Field	Type	Required	Description
remarks	string	Yes	Verification comments.
latitude	string	Yes	GPS Latitude of site.
longitude	string	Yes	GPS Longitude of site.
plot_image	file (image)	Yes	JPEG/PNG site photo with applicant (Max 500 KB).

Stage 2 Parameters (When Status is "Site Verified"):

Field	Type	Required	Description
site_engineer_file	file (pdf)	Yes	BDO signed report (Max 500 KB).
possession_certificate	file (pdf)	Yes	Official signed certificate (Max 500 KB).

Response (200 OK):

```
{
  "success": true,
  "message": "Application verified and approved successfully."
}
```

3. Villager Citizen APIs (Token Authenticated)

GET

/villager/dashboard

Bearer Token

Retrieves logged-in villager's flat information and active possession application timeline/status.

Response (200 OK):

```
{
  "success": true,
  "user": { "name": "Ram Lal", "mobile": "9876543210" },
  "owner_info": {
    "OwnerId": 85,
    "OwnerName": "Ram Lal",
    "BlockName": "Nissing",
    "VillageName": "Nissing Village",
    "FlatNo": "Block-C/Plot-45"
  },
  "possession_application": {
    "id": 5,
    "application_number": "PP-MMGAY-2026-1025",
    "physical_possession_status": "Visit Scheduled",
    "visit_slot_1": "2026-07-15 10:00:00",
    "visit_slot_2": "2026-07-16 11:30:00",
    "visit_slot_3": "2026-07-17 14:00:00",
    "visit_instructions": "Bring Aadhar Card & Original Receipts"
  },
  "logs": [
    { "new_status": "Visit Scheduled", "remarks": "Visit scheduled by BDO." }
  ]
}
```

GET

/villager/submit-possession

Bearer Token

Fetches BDO offered visit slot details for the villager before choosing one.

Response (200 OK):

```
{
  "success": true,
  "application": {
    "id": 5,
    "visit_slot_1": "2026-07-15 10:00:00",
    "visit_slot_2": "2026-07-16 11:30:00",
    "visit_slot_3": "2026-07-17 14:00:00"
  }
}
```

POST

/villager/submit-possession

Bearer Token

Submits the final selected visit slot selected by the villager.

Field	Type	Required	Description
selected_slot	string	Yes	The selected slot date-time string (e.g. "2026-07-15 10:00:00")

Response (200 OK):

```
{
  "success": true,
  "message": "You have successfully selected the visit slot: 15 Jul 2026 - 10:00 AM."
}
```
